

Counter top electronic faucet

- Automatic electronic faucet made of chromed brass.
- Model to install on counter top.
- Set of chromed brass, gloss finish.
- Durability and resistance to corrosion.
- Robust, anti-vandalism and safe because it's built without sharp edges or other dangerous elements.
- Suitable for collectivities and high frequency use range.
- In accordance with European safety directives (EC).

TECHNICAL DATA

- Made of chromed brass, gloss finish 1,2 mm thick.
- Electronic infrared sensor that stops the faucet when the hands are removed from the detection field.
- Water inlet: G1/2" inner thread.
- Dimensions: 150 height x 44 width x 163 depth (mm).
- Power supply: equipped with a 9 V transformed.
- Recommended water pressure: 0,5-8 bar.
- Sensor range: 220 mm. Adjustable (max. 300 mm - min. 80 mm).
- Security time: 90 seconds.
- Water temperature: max. 70°C.
- Flow: 5 l/min. Also available: 1.89 l/min (consult).
- Function: place your hands under the faucet. This is activated automatically, remaining in operation while the hands are inside the sensor field. The faucet switches off after a few seconds of removing them.
- Maintenance: use neutral pH soap and water for cleaning, then dry with a clean cloth. When cleaning the bathroom with aggressive products, the soap dispenser should be protected from splashes.
