

OPAL BLACK STEEL

Large Centre feed Dispenser

Part Code CF01-BK

The opal steel centrefeed paper dispenser is designed for all commercial area's that require constant use of tissue paper. It's both practical and robust whilst offering an executive finish with it's black steel lockable cover.

Ideal for high traffic area's commercial kitchens and places that require constant use of paper tissue for hands or sanitising surface area's.

The backplate and aperture are finished with a smooth gloss powder coat to protect hands when dispensing and reloading. When in use the aperture has been designed for the tissue to be dispensed either at the front of the unit or from each side if required.

The key lockable unit also features a level window indicator which is located at the front to monitor stock levels.
