

Dolphin Infrared Soap Dispensers

Wall Mounted

BC 632

BC 632 Dolphin Panel Mounted Infrared Soap Dispenser

- Electronic soap dispenser activated by an infrared sensor. When the user places his hand within the sensor range, the soap dispenser delivers the soap.
- Soap Drop Portions: 0.7-0.9ml per drop portion (this is adjustable and depends on viscosity of soap)
- High quality polished chrome or satin nickel finish brass construction
- Soap Container – 1,000ml
- 2 year guarantee
- Powered by 9v Transformer
- Wall Mounted
- Available in chrome (BC 632C) or satin stainless steel (BC 632S) finish
- Designed to match DB 400, DBL 400 and DB 1400 Dolphin Blue Taps
- Important: please contact Dolphin Technical Helpline 01424 202224 /consult fitting instructions for design guidance
- Settings can be adjusted with a remote control (DB 52)
